Health Forms – (Youth Camps)

1. **Camper Medical Form** – This form MUST be printed from your account and given to your child's physician to fill out and return. The form gives our Health Director permission to administer medications, both prescription and OTC. This form MUST be filled out even if your child does not take any medications.
2. **Physical** – We require a current physical for your child to attend camp.
3. **Immunization records** – We require a copy of your child's immunization records for your child to attend camp. **If your child is not getting immunizations, the NYS Health Dept. requires a written letter from the parent explaining why your child is not vaccinated.**
4. **Mental Health Form** – This is an online fillable form that automatically stays in your child's account. It does not need to be printed.
5. **Health History Form** – This form also stays in your child's account and does not need to be printed. This form gives us permission to have your child treated in the event of an emergency.

Health Forms – (Family Camps)

1. **Adult Medical Form** – All adults must fill out this form so that we know how to help you in the event of an emergency.
2. Youth medical forms are not necessary because children are at camp with family.

Children with Special Needs – We are a non-profit camp that runs solely on volunteers and we have limited experience with child behaviors. We are not equipped to handle children who need extra or one on one supervision. This would require an aide to stay at camp with your child.

- Dietary – we provide for dietary needs such as Gluten Free or any other food allergies.
- Child must be able to participate in camp activities.
- Child must be able to dress & shower themselves and have basic hygiene skills.
- If you have questions or concerns, call our office @ 716-366-1900
